

K. M. Marks

NOAA Laboratory for Satellite Altimetry, College Park, Maryland, USA

At the GEBCO 25th meeting of the Technical Sub-Committee on Ocean Mapping (TSCOM) in September, 2009, a “Cookbook Working Group” was formed to write a “cookbook” to nurture and guide nascent regional mapping projects.

- The cookbook became the “IHO-IOC GEBCO Cook Book”
- Step-by-step manual enables users to prepare and grid data for inclusion in GEBCO bathymetry products
- Contributors are scientific experts from international research organizations, universities, governments, and companies
- The Cook Book is a “living document-” as new contributions come in, it is updated electronically
- The Cook Book is freely available via the GEBCO website (www.gebco.net)

- Published as:
IHO Publication B-11 (April, 2012)
IOC Manuals and Guides, 63 (Oct. 2012)
- EOS “News Brief” announcing Cook Book was published in EOS Trans. AGU, v. 94 No. 9, 26 Feb. 2013, pg. 86
- Article in Hydro International (April, 2014) highlights Cook Book
- Citation established:
International Hydrographic Organization, Intergovernmental Oceanographic Commission, The IHO-IOC GEBCO Cook Book, IHO Publication B-11, Monaco, Sept. 2014, 331pp - IOC Manuals and Guides 63, France, Sept. 2014, 331pp.

- GEBCO website lists an “Update History” so users can learn what has changed in update
- The Cook Book is composed of three main sections- Gridding Examples, Fundamentals, and Advanced Topics, and is currently 461 pages long

Highlighted in Hydro International article

Overview: Table of Contents

Additional content is welcomed!

[illegible]

New since 2015 GEBCO Meeting:

Chapter 8, Section 8.2.11, References updated

Chapter 11, "LANDSAT 8 Satellite-Derived Bathymetry" has been replaced with an updated version

Chapter 13.0 Mosaics in CARIS

Chapter 14.0 Nautical Chart Adequacy

Chapter 15.0 Map Digitizer Program Version 2.1.0

GEBCO 2016 Vinã del Mar, Chile
